Senior Research Fellow

School of Pharmacy and Biomedical Sciences

University of Portsmouth

Grade 8

Salary Range £35,646 to £43,840

Fixed term post for three years and is available from 1 October 2010

There is a vacancy for a Senior Research Fellow, to join the Cellular & Molecular Neuro-oncology Research Group of the Institute of Biomedical & Biomolecular Sciences to work on a programme of research into the scientific approach to novel therapeutic strategies and delivery systems for brain tumours. The programme will include specific studies on cancer stem cells and the invasive behaviour of glioma cells. The work will be carried out under the supervision of Professor Geoff Pilkington housed within the School of Pharmacy & Biomedical Sciences. We are looking for a candidate who already has an established record of published research in the field of experimental neuro-oncology. The successful candidate will be responsible to Professor Pilkington & will work alongside other Senior Lecturers/Senior Research Fellows, taking responsibility in the co-mentorship of junior postdoctoral researchers as well as PhD students.

For an informal discussion about the post please contact: [Geoff.pilkington@port.ac.uk](mailto:Geoff.pilkington@port.ac.uk)
